

# Week 4 Assignment

Do the following questions on sheets and submit on Sunday before the presentation

Why do we use unsupervised learning and what are its benefits?

Your answer

Sort the following points using K-means clustering. Do two iterations. ( You will get means three times, the initial assumption and once after each iteration) A(1,1), B(1.5,2), C(3,4), D(5,7), E(3.5,5), F(4.5,5), G(3.5,4.5)

Your answer

Sort the following using Fuzzy K-means clustering. Take A and H as initial means. A(2,4), B(1,1), C(3,4), D(5,7), E(3,5), F(4,5), G(4,6), H(7,9) One iteration only.

Your answer

Sort the following using online clustering. A(2,4), B(1,1), C(3,4), D(5,7), E(3,5), F(4,5), G(4,6), H(7,9)
